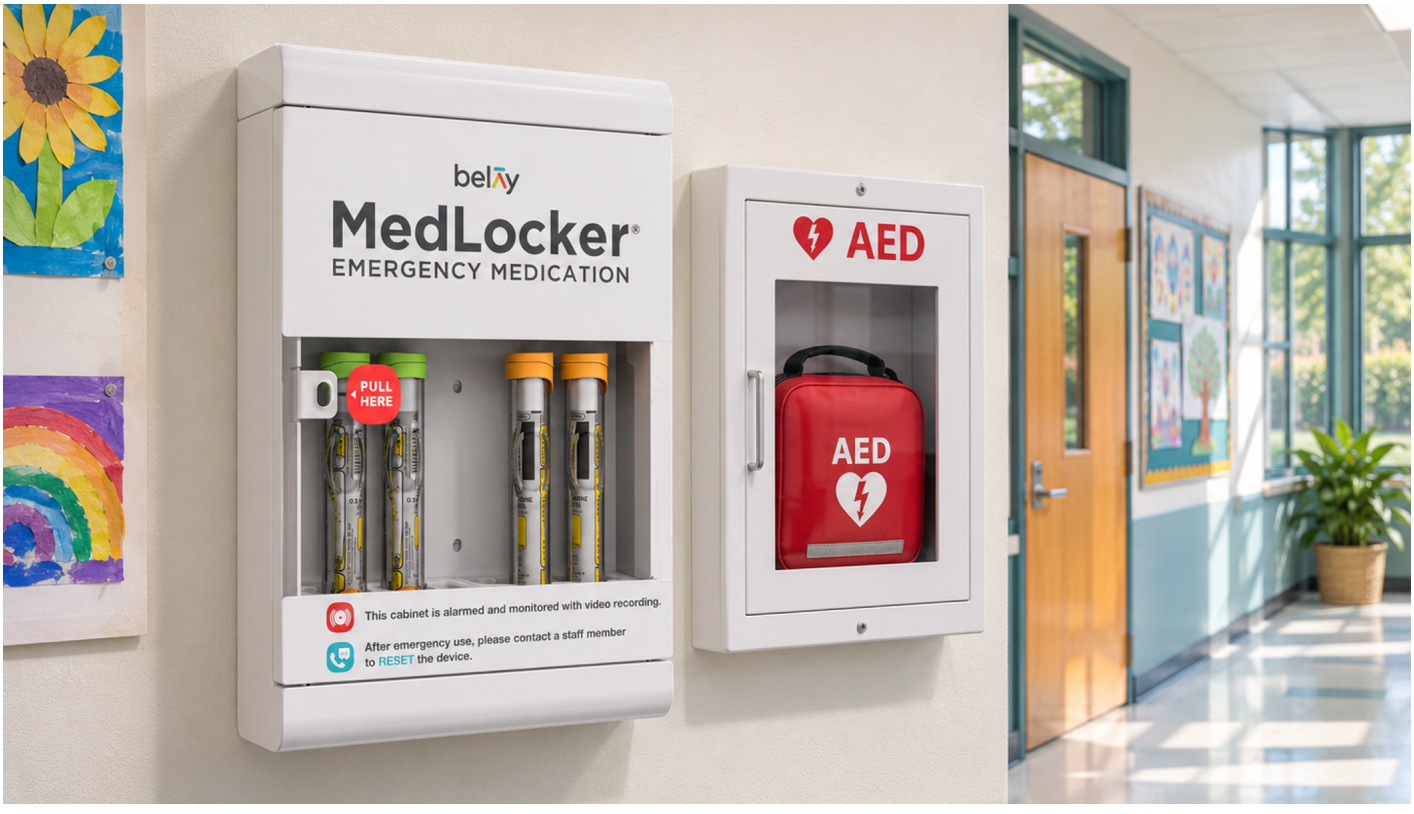
STOCK EPINEPHRINE FOR SCHOOLS

A shared layer of safety. For every child.

Emergency epinephrine in view. Support to keep it ready.



Illustrative school placement.

The AED is in sight. Epinephrine can be, too.

A school-held supply adds a shared layer of access, less dependent on where medication is kept or a family's ability to pay.

THE PROGRAM BEHIND THE MEDICATION

Complete support. Built around your school.

The full program, or the specific services you need.

Tamper-evident seal

Helps reveal interference.

Emergency access

Adults can open promptly in an emergency.

Built-in alarm

Helps deter tampering.

Door-activated security

Medication support. MedLocker. Or both.

From first supply to the next.

Source

Prescription support.
Medication sourcing.

Track

Inventory oversight.
Expiration tracking.

Replenish

Replacement after use or before expiration.

Support your school's response plan.

Staff training, allergy signage and educational posters available.

Stock medication supplements students' own supplies and care plans.
